

## SUSTAINABLE PROCUREMENT POLICIES

**Instruction No : POL.06**

Page No.: Page 1 / 1

Publication Date : 11.11.2024

Revision No. : 00

Revision Date:

In our procurement procedures, emphasis is placed on sustainability, and it is ensured that employees internalize this approach.

### **DETERMINATION OF PROCUREMENT POLICIES:**

- The companies we work with are considered business partners. The hotel pays attention to fulfilling payment responsibilities to these partners within the agreed terms to support their commercial sustainability.
- Equal information, opportunities, and environments are provided to all suppliers, adhering to objective criteria and the principles of transparent participation, confidential pricing, and outcome determination.
- Products and services purchased comply with relevant legal regulations, prioritizing the procurement of local businesses and products with local certifications.
- Preference is given to products made from or recyclable materials, sustainably produced or sourced from sustainable resources, with less packaging and waste, organic, energy and water-saving, and environmentally sustainable products and services.
- Positive priority is given to cooperatives, local unions, and businesses established by women entrepreneurs.
- Wherever possible, the procurement of large-packaged products is prioritized to minimize excessive packaging waste.
- Attention is paid to suppliers having Quality Assurance Management Systems, Environmental and Occupational Health and Safety Management Systems, and internationally recognized environmental and sustainability certifications/labels.
- Emphasis is placed on production and supply processes being free from harmful environmental impacts and complying with environmental regulations.
- Resources are used/consumed appropriately without harming natural life and the ecosystem, with attention to compliance with hunting bans.
- Importance is given to local and domestic production/service providers.
